Hello -

I wish to inform you that I firmly believe that the Microsoft Antitrust settlement does not go anywhere near far enough to address a convicted party of their misdeeds.

I find it difficult to accept that 8 judges finding Microsoft guilty, can lead to the kind of settlement reported to the American public by the Justice Department.

Being a software engineer by trade, I have watched as Microsoft practiced its predatory nature, watched as company after company decides not to compete with Microsoft's unfair advantages and anti-competitive nature.

Thank you for listening.
